PERATON

WE'RE DOING WHAT MATTERS MOST — SUPPORTING MISSIONS OF CONSEQUENCE

Around the globe and to the deep expanses of space, we provide leadership on the missions that others aspire to participate in. Peraton drives missions of consequence spanning the globe and extending to the farthest reaches of the galaxy.

As the world's leading mission capability integrator and transformative enterprise IT provider, we deliver trusted and highly differentiated national security solutions and technologies that keep people safe and secure.

We serve as a valued partner to essential government agencies across the space, intelligence, cyber, defense, homeland security, citizen security, and health markets. Every day, our employees do the can't be done, solving the most daunting challenges facing our customers.

WE ARE

CYBER	Cyber effects
	Cyber platforms
	Cyber resiliency
	Zero trust

DIGITAL	Digital transformation
	Digital consulting
	Digital intelligence
	Software

CLOUD	Secure enterprise IT
	Application integration
	Hybrid and multicloud
	Edge computing

OPERATIONS	Mission command
	Situational awareness
	Mission planning and management
	Communications and networks

ENGINEERING	System
	Platforms
	Logistics
	Operations support
	Applied research

SPACE

Innovative solutions for space protection and resiliency, flight dynamics, orbital determination, Earth observation, weather, intelligence processing, advanced sensors and payloads, ground processing, information analytics, space platform defensive cyber operations, and telemetry, tracking and control systems.

INTELLIGENCE

Critical mission operations support, mission management capabilities, and engineering services in support of the Intelligence Community and its critical missions.

CYBER

Robust cyber solutions and services that enable secure digital domains by supporting defensive and offensive capability needs and providing 24/7/365 protection of our nation's most critical networks and data systems. Our approach to delivering comprehensive cyber mission capabilities is underpinned by our information management and analytics technologies, which collect and disseminate time-sensitive intelligence to counter adversarial threats at the speed of the need.

DEFENSE

Strategic solutions for platforms and missions across air, land, and sea domains, specifically in nuclear re-entry systems, threat modeling and simulation, test and instrumentation range integration, early-warning and long-range detection systems, aircraft and naval avionics and propulsion, logistics, and advanced unmanned maritime and ground systems.

HOMELAND SECURITY

Crucial technology integration and mission support services to protect the homeland and advance national security priorities through systems that prevent terrorism, secure the borders, support domestic law enforcement, safeguard aviation, enable commerce, and partner with other government agencies and partner nations for intelligence collection and dissemination.

CITIZEN SECURITY

Comprehensive, secure solutions and insightful applied analytics that are focused on bringing the value of performance to complex environments, ensuring successful mission outcomes for our federal and state customers.

HEALTH

Cutting edge analytics to inform and support the decisionmakers leading our national health priorities. Our solutions reduce fraud, waste, and abuse; improve data analytics; and provide better user experiences to enhance efficiency.
