Peraton

NEXT GENERATION CLOUD PLATFORM

FedRAMP Moderate PaaS

In an era where cybersecurity is paramount, the U.S. government and commercial entities invest billions annually to safeguard their digital assets. The Federal Risk and Authorization Management Program (FedRAMP) plays a critical role in optimizing these investments by standardizing security procedures and reducing overall costs. Without FedRAMP, organizations would face inconsistent security requirements, leading to inefficiencies and increased vulnerabilities.

An application is not FedRAMP-Authorized just by residing on the AWS GovCloud.

Peraton stands out with its FedRAMP-Moderate authorization, a mark of excellence in security—trusted by federal, state, and local agencies, as well as commercial businesses. This authorization ensures that your organization can depend on us to adhere to and continuously monitor all essential security standards, providing peace of mind and robust protection.

PERATON'S SOLUTION: NEXT GENERATION CLOUD PLATFORM

Peraton's Next Generation Cloud Platform (NGCP) is a state-of-the-art platform as a service (PaaS) designed to streamline the path to FedRAMP-Moderate (DoD IL2 equivalent) authorization and ensure compliance with continuous monitoring requirements. Whether you're a federal, state, local, or commercial customer, NGCP enables you to securely host your applications in the cloud with unmatched reliability.

WHY PERATON NGCP?

The NGCP provides easy entry for a new application into a FedRAMP authorized AWS environment and access to continuous monitoring performed by Peraton. Backed by our expert team, we ensure a smooth, efficient, and metrics-driven onboarding process, providing you with the confidence and support needed to achieve and maintain top-tier security standards.

BENEFITS

- Accelerated FedRAMP Authorization: Achieve authorization in as little as six months, significantly reducing time to market.

- Robust Security: Mitigate risks such as data breaches and be prepared for any contingencies with enhanced security measures.

- Regulatory Compliance: Ensure full compliance with federal regulations, fostering trust, transparency, and peace of mind.

- Cost and Resource Efficiency: Save time, money, and resources by leveraging our PaaS or SaaS authorization capabilities.

- Continuous Monitoring: Benefit from continuous monitoring, expert support, and annual assessments to maintain your FedRAMP authorization status.

- Proven Trust: Trusted by the largest integrated healthcare system with nearly 500,000 users, demonstrating our platform's reliability and performance.

NGCP SAAS APPLICATIONS:

- **ePerformance**: A comprehensive electronic federal employee performance management application.

- **EPIMS**: An advanced environmental program information management system.

- **e.POWER®**: A powerful platform for developing business-critical applications with robust workflow (BPM) and minimal coding requirements.

- **n.SITE**: A secure solution for delivering federal agency training data to the Office of Personnel Management (OPM) via Connect.
