# Peraton

# WE PROTECT AND PROMOTE FREEDOM AROUND THE WORLD.

### WE SECURE YOUR FUTURE
We support our warfighters and national security decision-makers by developing mission-critical solutions across all operational regimes of air, land, sea, space, and cyberspace.

### WE CONNECT YOUR WORLD
We provide satellite and terrestrial communications, network optimization, network operations and sustainment, and managed security services for missions that cannot fail.

### WE SAFEGUARD YOUR ENTERPRISE
We provide digital forensics, threat and vulnerability assessments, secure network operations centers, security operations centers, and innovative remediation efforts for critical networks.

### WE PROTECT YOUR BORDERS
We operate and maintain airborne radars, national transportation systems and border management systems to control threats to our homeland.

### WE ENABLE COMMERCE
We provide integrated logistics support, supply chain management, and training and sustainment to ensure the efficiency of the worldwide flow of goods and services is maximized.

### WE ENHANCE HUMAN KNOWLEDGE
We empower humans with knowledge gained through scientific discovery, advanced research and development, and the exploration of space.

### WE PROTECT OUR CITIZENS
We deliver systems and solutions that enhance public health, safeguard the integrity of financial systems, enable the safety and protection of citizens, increase public safety, protect those who serve, and assure government systems.

# OUR VISION:

To be the company that national security customers consistently rely on to solve their most daunting challenges, to create solutions supporting their most vital missions, and to manage their most valued assets.

**Peraton**

# SUPPORTING VITAL MISSIONS:

### SPACE
Peraton provides solutions for space protection and resiliency, flight dynamics, orbital determination, Earth observation, weather, intelligence processing, advanced sensors and payloads, ground processing, information analytics, space platform defensive cyber operations, and telemetry, tracking and control systems.

### INTELLIGENCE
Peraton provides critical mission operations support, mission management capabilities, and engineering services in support of the Intelligence Community and its critical missions.

### CYBER
Peraton delivers robust cyber solutions and services, enabling our customers to secure their digital domain. Our solutions support defensive and offensive capability needs and our services include 24x7x365 protection of our nation's most critical networks and data systems. Peraton's approach to providing comprehensive cyber mission capabilities is underpinned by our information management and analytics technologies, which collect and disseminate time-sensitive intelligence to counter adversarial threats at the speed of the need.

### DEFENSE
Peraton provides strategic solutions for platforms and missions across air, land, and sea domains, specifically in nuclear re-entry systems, threat modeling and simulation, test and instrumentation range integration, early-warning and long-range detection systems, aircraft and naval avionics and propulsion, logistics, and advanced unmanned maritime and ground systems.

### HOMELAND SECURITY
Peraton provides critical technology integration and mission support services to protect the homeland and advance the national security priorities of the nation through systems that prevent terrorism, secure the borders, support domestic law enforcement, safeguard aviation, enable commerce, and partner with other government agencies and partner nations for intelligence collection and dissemination.

### CIVIL, STATE & LOCAL
We improve outcomes and create positive citizen engagement by delivering the right infrastructure, business solutions, and digital transformation services to help achieve policy objectives and integrate citizen-centric services.

### HEALTH
Peraton provides cutting edge analytics to inform and support decision makers leading our national health priorities. We enable customers to be more efficient through solutions that reduce fraud, waste and abuse; improve data analytics; and provide better user experiences.

## ABOUT PERATON
Peraton drives missions of consequence spanning the globe and extending to the farthest reaches of the galaxy. As the world's leading mission capability integrator and transformative enterprise IT provider, we deliver trusted and highly differentiated national security solutions and technologies that keep people safe and secure. Peraton serves as a valued partner to essential government agencies across the intelligence, space, cyber, defense, civilian, health, and state and local markets. Every day, our 22,000 employees do the can't be done, solving the most daunting challenges facing our customers.
