

AMY RALL

President, Citizen Security and Public Services Sector

In this role, Amy is responsible for the sector's program performance, financial, and growth objectives. Additionally, she is charged with aligning Peraton's strategic technology investment portfolio with the sector's customers' current and future mission requirements.

Amy brings more than 30 years of experience in business growth and technology leadership. Prior to joining Peraton, she was the president of DMI's Public Sector Solutions team, where she focused on delivering superior technology, engineering, and mission solutions.

Amy was formerly the CEO of Linkware Group, which successfully delivered artificial intelligence, machine learning, and DevSecOps border management technologies for governments. She also served as the senior vice president of the Homeland and Critical Infrastructure business unit at SAIC and Unisys, where she was recognized for outstanding leadership and customer delivery for work supporting border management, transportation, and protection of critical infrastructure. Throughout her career, Amy has provided leadership to IT teams focused on developing mission critical systems enabling integrations of key technologies including enterprise IT, biometrics, computer vision, mobile, cloud, and AI/ML throughout the federal government.

Amy earned a bachelor's degree from American University and was the winner of the 2017 FCW Fed100 award for her work supporting the Department of Homeland Security's mission critical programs.
