

2023 Statement of Commitment to Small Businesses

Peraton affirms our commitment to the advancement of our Small Business Program. Please take time to share this statement with your staff so they appreciate the importance of this commitment.

Peraton commits that in the performance of U.S. federal contracts, organizations such as small, small disadvantaged; veteran-owned; service-disabled veteran-owned; woman-owned; companies located in historically underutilized business zones; Alaska Native Corporations; and concerns owned and operated by Indian tribes shall have the maximum practical opportunity to participate in subcontracts awarded by Peraton in accordance with Public Laws 95-507 and 100-180. Peraton also commits to provide opportunities for historically black colleges and universities, higher education institutions that support under-represented populations, and minority institutions to participate in technical, engineering, and research services.

This program is important for the following reasons:

- For Peraton - We are able to (1) establish positive working relationships with qualified small and diverse businesses, (2) meet client contract requirements on socio-economic objectives;
- For Peraton's small business partners - We can provide meaningful subcontracting and mentoring opportunities; and
- For Peraton's Clients - We can demonstrate our commitment to meeting small business goals and help to carry out the socioeconomic mission for which Federal Small Business Programs were designed.

Peraton has a strong track record of supporting communities in which we work and live to help everyone access the economic opportunities available. We recognize an inclusive business environment brings innovation and a competitive advantage to the marketplace.

Peraton coordinates our Small Business Program in accordance with all applicable federal laws, regulations and company policies. All employees involved in procurement activities are charged with the responsibility of understanding and implementing our commitment. If you have any questions or need assistance, please contact Peraton's Small Business Program Office.

Sincerely,

Stu Shea
Chairman, President and Chief Executive Officer
Peraton
