Statement of Commitment to Small Businesses

Peraton commits that in the performance of U.S. federal contracts, organizations such as small, small disadvantaged; companies located in historically underutilized business zones; veteran-owned; service-disabled veteran-owned; nonprofit agencies operating under the AbilityOne Program; Alaska Native Corporations; and concerns owned and operated by Indian Tribes, shall have the maximum practical opportunity to participate in subcontracts awarded by Peraton. Peraton also seeks to provide opportunities for historically black colleges and universities, higher education institutions that support under-represented populations, and minority serving institutions to participate in technical, engineering, and research services.

This program is important for the following reasons:

- For Peraton—We are able to (1) establish positive and inclusive working relationships with qualified small and diverse businesses, (2) meet client contract requirements on socio-economic objectives;

- For Peraton's small business partners—We can provide meaningful subcontracting and mentoring opportunities; and

- For Peraton's customers—We can demonstrate our commitment to meeting small business goals and help to carry out the socioeconomic mission for which federal small business programs were designed.

Peraton has a strong track record of supporting communities in which we work and live to help everyone access the economic opportunities available. We recognize an inclusive business environment brings innovation and a competitive advantage to the marketplace.

Peraton coordinates our Small Business Program in accordance with all applicable federal laws, regulations, and company policies. All employees involved in procurement activities are charged with the responsibility of understanding and implementing our commitment. If you have any questions or need assistance, please contact Peraton's Small Business Program Office.

Sincerely,

Steve Schorer
Chairman, President and Chief Executive Officer
